Total permit fee is doubled if work is started before permit is applied for.

SIGNATURE OF CLERK

## Plans and Specifications

An applicant shall submit a detailed set of plans and specifications with the application for an Electrical permit for any wiring or alteration to an electrical system if the system requires installation of electrical equipment that has an ampacity of more than 400 amperes for the service or feeder and if the calculated floor area in a building is more than 3,500 square feet. The enforcing agency may request plans for projects that include an unusual design. The electrical drawings shall include all of the following details:

- (a) Lighting Layout
- (b) Circuiting
- (c) Switching
- (d) Conductor and raceway sizes
- (e) Wattage schedule
- (f) Service location and riser diagram
- (g) Load calculations
- (h) A proposed method of construction that is drawn with symbols of a standard form

All conductors are assumed to be copper unless otherwise stated in the plan. Specifications, when provided, shall also include the information listed in this rule.

The selection of suitable disconnect and overcurrent devices to provide proper coordination and interrupting capacity for a wiring system is the responsibility of the designer. The enforcing agency, when approving electrical plans, does not assume responsibility for the design or for any deviations from any electrical drawings. The permit holder shall ensure that the plans and specifications approved by the enforcing agency, or a certified copy of the plans and specifications, where required, are available on the job for the use of the enforcing agency.

## HOMEOWNER AFFIDAVIT

I hereby certify the electrical work described on this electrical permit application shall be installed by myself in my own single family dwelling in which I am living or about to occupy. All work shall be installed in accordance with the State Electrical Code and shall not be enclosed, covered up, or put into operation until it has been inspected and APPROVED by the Village of Romeo Electrical Inspector. I will cooperate with the Village of Romeo Electrical Inspector and assume the responsibility to arrange for necessary inspections.
